

Q1000^{Series} Exit Devices

Contents

Q1000 Series exit Devices

Q1000 Series Exit devices and Trims are designed for new or retrofit installation into other manufacturers' devices. Push Bar assembly's smooth and reduced projection minimizes catch hazard. Device function is field selectable by adaptation with selected type of trim. A full complement of lever trim is available in a wide range of architectural finishes. Q1000 Series are made to comply with highest safety and security standards in the industry. Devices and trims are UL listed for Panic Hardware or Fire Hardware. They are certified to ANSI/UL305 and ANSI/BHMA A156.3 Grade 1. Q1000 Series provides superior durability for high impact applications such as offices, schools, banks, assisted living facilities and other institutions or commercial buildings.

Out of an abundance of caution, MBS has elected to place the Proposition 65 warning on all products shipped to California.

WARNING: These products can expose you to chemicals including chromium, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Features

Q1000 Series Exit device is fabricated and blended with Simplicity, Strength, Durability, Aesthetics and Installer-friendly Innovations.

- Devices and Trims are designed for new or retrofit installation into other manufacturers' exit devices and trims.
- Made to comply with highest safety and security standards in industry.
- UL listed for Panic Hardware or 3-Hour Fire Rated Exit Hardware.
- ETL certified to ANSI/UL305 and ANSI A156.3 2008 Grade 1 standards.

- A** Flush end cap design.
- B** Simple cylinder built in add-on kit.
- C** Special plastic inserts and rubber bumpers reduce noise, and don't fail under high or low temperature. Impervious to petroleum lubricants.
- D** Dogging can be done with an allen wrench, a small flat key or a flat blade screwdriver.
- E** Integrated End Cap and Pivot adds push pad stability and makes the bar move just as well regardless of where the pressure is applied to push pad.
- F** Push Bar is smooth surfaced. Reduced projection minimizes catch hazard.
- G** Center Case with maximum versatility, Surface and Concealed Vertical Rods can be adjusted inside the center case with an ingenious rod holder design.
- H** Double Cylinder devices are used like classroom intruder locks, allowing the teacher to lock the outside trim without opening the door.
- I** Stainless Steel Latch and deadlatching blade add perceived value.

Hand of Doors

Q1100/QF1100

Rim Exit Devices (RIM)

Specifications

Applications	• Offices, schools, banks, assisted living facilities and other institutions or commercial buildings.
Doors & Preparations	• For all types of single and double doors with a mullion. For mullions, see page 31. • Available for 1-3/4" to 2-1/4" (45 mm – 57 mm) thick, up to 4' wide opening. For thicker doors, consult factory. • For new or retrofit installation into other manufacturers' devices. • Furnished standard for 1-3/4" thick, 3' wide opening. • For maximum door opening applications and listings for Fire Exit Devices, see page 40.
Certifications	• UL listed for UL305 and ETL certified for ANSI A156.3-2008 Grade 1 Panic Hardware standards. • Fire rated for 3-Hour Fire Exit Hardware, conforms to UL10C and UBC7-2.
Center Case	• Universal center case, heavy wrought steel and sintered metal parts. • Device functions field selectable by removal of drive screw in back of center case and determined by adaptation with type of trim.
Strikes	• For strike information, see pages 25-26. • Q106 roller type furnished standard. For Fire Rated: Q108.
Dogging	• NOT available on Fire Exit Hardware. • Dogging options available for LD, CD, ED (ELR), see page 30. • Flat/Hex key dogging standard.
Fasteners	• Machine screws, metal screws and wood screws furnished standard.
Sex Bolts (SNB)	• Required when used with wood, composite or non-reinforced hollow metal doors. For EO device, specify 8-1024 (#10-24) SNB. For device with trim, specify 2-1024 (#10-24) SNB, see page 8.
Device Centerline from Finished Floor	• 39-5/8" (1006 mm)
Latch Bolt	• Stainless Steel, deadlocking, 3/4" (19 mm) throw.
Handing	• Device non-handing except for Double Cylinder option. For Double Cylinder, specify handing when required. • Trim field reversible.
Cylinders	• NOT furnished standard, specify when required. For Cylinder details, see page 27 or How to order pgs 44-48.
Trim	• The device & trim are sold separately, easy to mix and match, see pages 20-25.

Q1200/QF1200

Surface Vertical Rod
Devices (SVR)

Specifications

Applications	• Offices, schools, banks, assisted living facilities and other institutions or commercial buildings.
Doors & Preparations	• For all types of single and double doors with/without a mullion. For mullions, see page 31. • For new or retrofit installation into other manufacturers' devices. • 1-3/4" to 2-1/4" thick, up to 4' wide opening; for thicker doors, consult factory. • Furnished standard for 1-3/4" thick, 3' wide opening. • For maximum door opening applications and listings for Fire Exit Devices, see page 40.
Certifications	• UL listed for UL305 and ETL certified for ANSI A156.3-2008 Grade 1 Panic Hardware standards. • Fire rated for 3-Hour Fire Exit Hardware, conforms to UL10C and UBC7-2.
Device Functions	• Field selectable by removal of drive screw in back of center case and determined by adaptation with type of trim.
Center Case	• Heavy wrought steel assembly with top and bottom rod adjusters. • Adjustment accessible through center case after installation.
Vertical Rods	• 1/2" Square tubing, standard rods accommodate 7' (2134 mm) door. • Top rod length is 36-1/16" (916 mm), Bottom rod length is 31-7/8" (807 mm) standard. • Top rod length 48-1/8" (1221 mm) is available for 8' (2438 mm) door. • Extension rod available 2' (610 mm) for doors over 8'. Specify when ordering. Rod size see page 32.
Top Latch Bolt	• Stainless Steel, Pullman type deadlocking, 5/8" (16 mm) throw.
Bottom Bolt	• Stainless Steel, Pullman type deadlocking, independent action 5/8" (16 mm) throw.
Top & Bottom Latch Case	• 4-1/2" x 2-1/8" x 1-1/2" (114 mm x 54 mm x 38 mm)
Door Undercut	• 1/4" (6 mm)
Strikes	• Top Q106 roller type strike standard, Bottom Q227 strike standard. For Fire Rated: Top Q108, Bottom Q227F. See pages 25-26.
Dogging	• NOT available on Fire Exit Hardware. • Dogging options available for LD, CD, ED (ELR), see page 30. • Flat/Hex key dogging standard.
Fasteners	• Machine screws, metal screws and wood screws furnished standard.
Sex Bolts (SNB)	• Required when used with wood, composite or non-reinforced hollow metal doors. For EO device, specify 6-1024 (#10-24) SNB, 4-4120 (#1/4-20) SNB. For device with trim, specify 2-1024 (#10-24) SNB and 4-4120 (#1/4-20) SNB, see page 8.
Device Centerline from Finished Floor	• 39-5/8" (1006 mm)
Less Bottom Rod (LBR)	• Available for door openings up to 8' wide x 10' high. Specify suffix "LBR".
Handing	• Device non-handing, Trim field reversible.
Cylinders	• NOT furnished standard, specify when required. For cylinder details, see page 27 or How to Order pages 44-48.
Trim	• The device & trim are sold separately, easy to mix and match, see pages 20-25.
Fire Bolt (LBR)	• Available for door openings up to 8' wide x 10' high. Specify suffix "LBR". • Fire bolt is heat activated - used in less bottom rod (LBR) option for fire exit devices.

Q1300/QF1300

Concealed Vertical Rod
Devices (CVR)

Specifications

Applications	• Offices, schools, banks, assisted living facilities and other institutions or commercial buildings.
Doors & Preparations	• For all types of single and double doors with/without a mullion. For mullions, see page 31. • For new or retrofit installation into other manufacturers' devices. • 1-3/4" to 2-1/4" thick, up to 4' wide opening; for thicker doors, consult factory. • Furnished standard for 1-3/4" thick, 3' wide opening. • For maximum door opening applications and listings for Fire Exit Devices, see page 40.
Certifications	• UL listed for UL305 and ANSI A156.3-2008 Grade 1 Panic Hardware. • Fire rated for 3-Hour Fire Exit Hardware, conforms to UL10C and UBC7-2.
Device Functions	• Field selectable by removal of drive screw in back of center case and determined by adaptation with type of trim.
Center Case	• Heavy wrought steel assembly with top and bottom rod adjusters. • Adjustment accessible through center case after installation.
Vertical Rods	• 1/2" Round rod, standard rods accommodate 7' (2134 mm) door. • Top rod length is 37" (940 mm), Bottom rod length is 31-3/4" (805 mm) standard. • Top rod length 49" (1245 mm) is available for 8' (2438 mm) door. • Extension rod available 2' (610 mm) for doors over 8'. Specify when ordering. Rod size, see page 32.
Top Latch Bolt	• Stainless Steel, Pullman type deadlocking, 5/8" (16 mm) throw.
Bottom Bolt	• Stainless Steel, Pullman type deadlocking, independent action 5/8" (16 mm) throw.
Door Undercut	• 1/4" (6 mm)
Strikes	• Top Q106 roller type strike standard, Bottom Q227 strike standard. For Fire Rated: Top Q216, Bottom Q227F. See pages 25-26.
Dogging	• NOT available on Fire Exit Hardware. • Dogging options available for LD, CD, ED (ELR), see page 30. • Flat/Hex key dogging standard.
Fasteners	• Machine screws, metal screws and wood screws furnished standard.
Sex Bolts (SNB)	• Required when used with wood, composite or non-reinforced hollow metal doors. For EO device, specify 6-1024 (#10-24) SNB. For device with trim, specify 2-4120 (#1/4-20) SNB, see page 8.
Device Centerline from Finished Floor	• 39-5/8" (1006 mm)
Less Bottom Rod (LBR)	• Available for door openings up to 8' wide x 10' high. Specify suffix "LBR".
Handing	• Device non-handing, Trim field reversible.
Cylinders	• NOT furnished standard, specify when required. For cylinder details, see page 27 or How to Order pages 42-46.
Trim	• The device & trim are sold separately, easy to mix and match, see pages 20-25.
Fire Bolt (LBR)	• Available for door openings up to 8' wide x 10' high. Specify suffix "LBR". • Fire bolt is heat activated - used in less bottom rod (LBR) option for fire exit devices.

Mortise Case

The Q1400 model Mortise lock is equipped with a 3/4" (19mm) Anti-friction stainless steel latch bolt which is handling reversible without moving the cover from the case. It has a non-handed auxiliary bolt for deadlocking and a faceplate with an adjustable bevel. Fits door machined per [ANSI A115.1](#) (type 86) Mortise Lock preparation.

Q1400/QF1400
Mortise Lock Exit
Devices (Mortise)

Specifications

Applications	• Offices, schools, banks, assisted living facilities and other institutions or commercial buildings.
Doors & Preparations	• For all types of single and double doors. • For new or retrofit installation into other manufacturers' devices. • 1-3/4" to 2-1/4" thick, up to 4' wide opening; for thicker doors, consult factory. • Furnished standard for 1-3/4" thick, 3' wide opening. • For maximum door opening applications and listings for Fire Exit Devices, see page 40.
Certifications	• UL listed for UL305 and ETL certified for ANSI A156.3-2008 Grade 1 Panic Hardware standards. • Fire rated for 3-Hour Fire Exit Hardware, conforms to UL10C and UBC7-2.
Mortise Lock Functions	• Field selectable by reversing set screw in mortise case and determined by adaptation with type of trim.
Center Case	• Latch bolt of mortise case can be adjusted for full retraction by Adjustment Finger with fine tuning of adjustment screw in center case.
Strikes	• Q306 Strike standard and Fire Rated, non-handed, see pages 25-26.
Dogging	• NOT available on Fire Exit Hardware. • Dogging options available for LD, CD, ED (ELR), see page 30. • Flat/Hex key dogging standard.
Fasteners	• Machine screws, metal screws and wood screws furnished standard.
Sex Bolts (SNB)	• Required when used with wood, composite or non-reinforced hollow metal doors. For EO device, specify 6-1024 (#10-24) SNB. For device with trim, specify 2-4120 (#1/4-20) SNB, see page 8.
Device Centerline from Finished Floor	• 39-5/8" (1006 mm)
Latch Bolt	• Stainless Steel, deadlocking, 3/4" (19 mm) throw.
Handing	• Device non-handing, except for Double Cylinder option, specify handing when required. Trim field reversible.
Cylinders	• NOT furnished standard, specify when required. For cylinder details, see page 27 or How to Order pages 44-48.
Trim	• The device & trim are sold separately, easy to mix and match, see pages 20-25.

Q1500/QF1500

Three-Point Latching Devices (3PT)

Specifications

Applications	• Offices, schools, banks, assisted living facilities and other institutions or commercial buildings.
Doors & Preparations	• For all types of single and double doors with a mullion. For mullions, see page 31. • For new or retrofit installation into other manufacturers' devices. • 1-3/4" to 2-1/4" thick, up to 4' wide opening; for thicker doors, consult factory. • Furnished standard for 1-3/4" thick, 3' wide opening. • For maximum door opening applications and listings for Fire Exit Devices, see page 40.
Certifications	• UL listed for UL305 and ETL certified for ANSI A156.3-2008 Grade 1 Panic Hardware standards. • Fire rated for 3-Hour Fire Exit Hardware, conforms to UL10C and UBC7-2.
Device Functions	• Field selectable by removal of drive screw in back of center case and determined by adaptation with type of trim.
Center Case	• Heavy wrought steel assembly with top and bottom rod adjusters. • Adjustment accessible through center case after installation.
Vertical Rods	• 1/2" Square tubing, standard rods accommodate 7' (2134 mm) door. • Top rod length is 36-1/16" (916 mm), Bottom rod length is 31-7/8" (807 mm) standard. • Top rod length 48-1/8" (1221 mm) is available for 8' (2438 mm) door. • Extension rod available 2' (610mm) for doors over 8'. Specify when ordering. Rod size, see page 32.
Top Latch Bolt	• Stainless Steel, Pullman type deadlocking, 5/8" (16 mm) throw.
Bottom Bolt	• Stainless Steel, Pullman type deadlocking, independent action 5/8" (16 mm) throw.
Top & Bottom Latch Case	• 4-1/2" x 2-1/8" x 1-1/2" (114 mm x 54 mm x 38 mm)
Door Undercut	• 1/4" (6mm)
Strikes	• Top and middle Q106 roller type strike standard, bottom Q227 strike standard. - For Fire Rated: Top and middle Q108, Bottom Q227F. See pages 25-26.
Dogging	• NOT available on Fire Exit Hardware. • Dogging options available for LD, CD, ED (ELR), see page 30. • Flat/Hex key dogging standard.
Fasteners	• Machine screws, metal screws and wood screws furnished standard.
Sex Bolts (SNB)	• Required when used with wood, composite or non-reinforced hollow metal doors. For EO device, specify 6-1024 (#10-24) SNB, 4-4120 (#1/4-20) SNB. For device with trim, specify 2-1024 (#10-24) SNB and 4-4120 (#1/4-20) SNB, see page 8.
Device Centerline from Finished Floor	• 39-5/8" (1006 mm)
Less Bottom Rod (LBR)	• Available for door openings up to 8' wide x 10' high. Specify suffix "LBR".
Handing	• Device non-handing, Trim field reversible.
Cylinders	• NOT furnished standard, specify when required. For cylinder details, see page 27 or How to Order pages 44-48.
Trim	• The device & trim are sold separately, easy to mix and match, see pages 20-25.
Fire Bolt (LBR)	• Available for door openings up to 8' wide x 10' high. Specify suffix "LBR". • Fire bolt is heat activated - used in less bottom rod (LBR) option for fire exit devices.

Trim Operation Options

Standard Operation

Model Q308

Key Locks or Unlocks
Lever or Knob
(For 08/10 Functions)

Q308 Trim is composed of heavy duty investment cast steel, an internal breakable cam to break away at predetermined load applied to outside lever handle in locked mode without damaging or violating security. The cam is easily replaceable with minimum efforts.

Clutch Operation

Model QC308

Key Locks or Unlocks
Lever or Knob
(For 08/10 Functions)

QC308 Trim is designed to withstand abusive conditions, working parts are made of heavy duty investment cast steel. An internal slip clutch mechanism is built inside lever shank allowing the lever handle to break away without damaging or violating security when excessive force is applied. The lever can be easily lifted back to home position without using tools, replacement parts, or removing it from the door.

Classroom Security Solutions

Marshall Best Security is proud to present you with our Classroom Security Solutions which aids school facilities to provide a safe and secure environment. With this convenient visual aid, staff can immediately be notified whether the door is in a locked state or not, denying entry to unauthorized individuals. In case of an emergency, staff and students are always free to exit.

Marshall Best Security makes sure to provide a safe and secure learning environment for its customers.

Double Cylinder with Indicator - Handed

Q1100 Rim Device - Handed

Q1400 Mortise Device - Handed

The Double Cylinder option is available on the Rim and Mortise Exit Devices. An indicator device installed on the inner side of door informs whether the outside trim is in a locked or unlocked state.

The outside key cylinder locks or unlocks the outside Trim. Specify Outside Trim with "07" or "10" function depending on trim options. When only the inside key cylinder is required to lock or unlock the outside trim and no outside cylinder operation is necessary for Rim Exit Device specify "08" (outside trim will be with blank mortise cylinder). For Mortise Exit Device specify "14" or "15" function depending on trim options.

Applications

Device		Rim 1100	Mortise 1400

	Inside Cylinder	Rim Cylinder (I/C / STD)	
	Inside Thumbturn	OK	
Trim	Escutcheon	Q308R / QC308R	Q308M
	Thumbpiece	N/A	Q215M / Q214M

Note: Cylinder not furnished standard. Specify when required.

Cylinder

Thumbturn

Dogging Options

LD-Less Dogging

Less Dogging is available in all Q1000 Series fire exit devices.

CD-Cylinder Dogging

Available for all models except Fire Exit Hardware. Cylinder Dogging provides the ability to lock down the push bar with a key cylinder; allowing the door can be used in the Push/Pull mode. To order, "CD", requires the use of a 1-1/4" mortise cylinder (not furnished standard).

HKD-Flat / Hex Key Dogging

ED-Electric Dogging

Details, see page 34.

Q170 Keyed Removable Mullion

The head design of Q170/QF170: Provides a secure, quick & easy means of removal. The Mullion can be installed and locked without using key.

Top and Bottom Fittings : Investment cast steel, furnished with steel anchors for floors.

Mullion : 2" x 3" Steel.

Stock Size : 8' length standard, can be cut for opening less than 8'.
10' length available upon request.

Finishes : 689

UL Listed : Listed for 3-Hour Fire Rated Exit Hardware.

Cylinder : Not furnished standard, keying is standard 1-1/8" mortise cylinder with cam.

Q270 Non-Keyed Removable Mullion

Top and Bottom Fittings : Investment cast steel, furnished with steel anchors for concrete floors.

Mullion : 2" x 3" Steel

Stock Size : 8' length standard, can be cut for openings less than 8'.
10' length available upon request.

Finishes : 689

UL Listed : Listed for 3-Hour Fire Rated Exit Hardware.

How to order:

	Model	Height	Finish
	Q170	7	689
Q170	Keyed	7', 8', 10'	689
QF170	Keyed, Fire Rated		
Q270	Non-Keyed		
QF270	Non-Keyed, Fire Rated		

Note: Q108 Rim Strike sold separately.
TR200A Ring Package required for Keyed Mullions.

Keyed
Removable Mullion

Non-Keyed
Removable Mullion

Removable mullions are used with paired doors where a full width opening is only occasionally required. Doors are fitted with Rim Exit Devices and normally function as single doors. Available in 7', 8' or 10' lengths.

Shims

For Q106 Rim Strike

P/N. 616819-010

Two (2) pieces furnished standard.

For CVR top & bottom latches

P/N. 616819-050

Sixteen (16) pieces furnished standard for Top and Bottom latches. Eight (8) pieces furnished standard for LBR.

Top Rod

* Extension Rod

	Q1200 Q1500 (SVR/3PT)	616823-010	31-7/8" (807mm)
	Q1300 (CVR)	616823-060	31-3/4" (805mm)

Miscellaneous

Coordinator

COR7 / COR9

Prevents active door from closing before inactive door. 7" length (177.8mm) for pairs of doors equipped with outside astragal. 9" length (228.6mm) for pairs of doors equipped with inside and outside astragals. Both include bracket and wear plate. Packed with wood and machine screws.

Finishes : 612 , 626

Carry Open Bar

COB-1

For use with door coordinator. Aids in opening active door when inactive door is opened, and protects astragal and overlapping strike. Cast bronze. Packed with wear plate, wood and machine screws.

Finishes : 612 , 626

Dummy Push Bar

DP3 Active / DP4 Inactive

The push pad is active or inactive. A push/pull operation can be accomplished by using an outside dummy trim.

Size 3' or 4' (914mm or 1219mm)

Electric Latch Retraction – ELR (ED)

Latch Retraction for the Exit Device can be remoted for ELR option. Continuous duty solenoid can retract Latchbolts under condition of unlatching or continually dogging. The ELR option can be applied with card readers, toggles or key switches, push buttons and fire alarm systems. PS100 power supply is required for the use of ELR option.

- UL Listed for Panic and Fire for Class II Circuitry.
- ELR is available with manual Flat/Hex Key for Panic Exit Devices.

Solenoid Specifications :

- Current Pulse (0.3 seconds) : 24 VDC, 16 Amp.
- Continuous : 24 VDC, 0.3 Amp.

Signal Switch – SS

Micro-switch Detecting Pushbar and Latch bolt

Two internal switches are mounted into the device. (One switch is designed to monitor push bar and latch bolt assembly while there is unauthorized use to the device, alarm will be sounded once the switch has been activated). The other switch is to connect with the 1 1/4" (32mm) mortise with straight cam when alarm has been triggered. A power supply must be set from the frame to the door.

Electrical Ratings :

- 24VDC, 2 Amp SPDT.
SPDT (Single Pole, Double Throw)

Electrical
options

Alarm Exit – AL

The Alarm Exit provides a simple way to audibly monitor the use of an exit device. The unit contains an alarm which is activated when the push bar is depressed. Alarm sounds at 85db. The unit operates on one standard 9-volt alkaline battery. When the battery is weak, the horn will emit an intermittent low battery alert signal. Can also be powered using the PS-100 Power Supply.

The AL requires a standard 1-1/4" Mortise Cylinder which is used as a key switch to perform the following functions:

- Silence the alarm after activation.
- Deactivate the alarm for continuous unmonitored egress.
- Activate mechanical dogging for Non-Fire Rated Devices.

Available for all Q1000 Series Devices from 3'0" to 4'0" wide doors, decal for application on door:

EMERGENCY EXIT ONLY
PUSH TO OPEN ALARM WILL SOUND

The AL is available with 2 optional circuit boards. External Inhibit (EI) allows for the use of external switch to be used to arm, disarm and reset the alarm. Auto Reset (AR) rearms the alarm after a preset time. AR is available in three factory set times – 1-1/2, 3 or 5 minutes.

The Alarm Exit is available in kits for retrofit on existing Q1000 Series Devices. Specify finish when ordering.

Alarm kits are available with a choice of two switch kits, RX or LM. RX monitors the push pad and is furnished standard.

To order:
Example ALK Kit-36-630

Request to Exit – RX

Micro-switch Detecting Pushbar

The RX feature is used to signal the use of an opening. This device is equipped with one internal SPDT switch which monitors the pushpad. The device can be connected to a security console, or may be used as a single door alarm when used with a horn and power supply.

Electrical Ratings :

- Switch rated : 24VDC, 0.5Amp SPDT.
SPDT (Single Pole, Double Throw)

Latch Bolt Monitoring – LM

Micro-switch Detecting Latch Bolt

The LM feature is used to signal the use of an opening. This device is equipped with one internal SPDT switch which monitors the latch bolt. The device can be connected to a security console, or may be used as a single door alarm when used with a horn and power supply.

Electrical Ratings :

- Switch rated : 24VDC, 0.5Amp SPDT.
SPDT (Single Pole, Double Throw)

Delayed Egress Device – DE

The Delayed Egress Exit Device provides a controlled egress for openings which require Panic or Fire Exit Hardware for safe egress. It is a self contained exit device, which when armed will deny exit to unauthorized personnel for 15 or 30 seconds, while simultaneously sounding a local or remote audible alarm. The Remote Monitoring feature will alert the security personnel that an attempt is being made to exit the opening. After the 15 (or 30) second delay of egress period, the device will function as a standard exit device for safe egress.

OPERATION :

The device secures the door in the locked mode with the Red LED indicating locked status. Depressing the Push bar by accident or for less than the Nuisance Delay Time will sound the alarm without initiating the alarm sequence. Depressing the Push bar with less than 15 pounds pressure, for longer than the Nuisance Delay Time will initiate an irreversible local audible beeping tone and a visual Red indicator until the device releases. After the delay egress time, the lock releases and the alarm changes to a steady tone which continues to alarm until Reset. The remote monitoring contact output can be used to alert security personnel.

The Delayed Egress device includes decal for application on door :

**PUSH UNTIL ALARM SOUNDS
DOOR CAN BE OPENED IN 15 SECONDS**

Note :

A "30 Second" decal is provided when the 30 Second Delay option is specified.

Solenoid Specifications :

- Current Pulse (0.3 seconds) : 24 VDC, 16 Amp.
- Continuous : 24 VDC, 0.3 Amp
Requires PS100 Power Supply.

Electric Trim – EQ300 Series

Electrified trim with integral lock/unlock option. Trim can be used for all Q1000 Series models. Available as fail-secure or fail-safe. Specify suffix FSE (Fail-Secure) or FS (Fail-Safe) following trim designation. Available for the 09 function only.

Electrical Ratings :

Solenoid current : 24VDC, 0.25 Amp.
12VDC, 0.5 Amp.

EQ309R-FSE / FS for RIM, SVR, CVR, 3PT Devices

EQ309M-FSE / FS for Mortise Device

Electric Mortise Lock

Wiring Diagram

E Mortise Function

SS Mortise Function

The Electric Mortise Exit Devices (EQ1400) can control entry to remote locking and unlocking the outside trim or an automatic fire alarm system.

The remote has two main functions :

- (1) To monitor the lock or unlock status through SPDT signal.
- (2) To monitor the latch bolt status through SPDT signal.

The outside trim cylinder can retract the latch bolt as a night latch function.

The mortise lock is available with the following electrical options :

- EQ1400 - Electric lock/unlock with switches to monitor the outside trim (locked or unlocked) and to monitor the latchbolt.
- SSQ1400 - Latchbolt and trim locked or unlocked monitoring.

Electrical Ratings :

- Solenoid current : 24VDC, 0.25 Amp.
12VDC, 0.5 Amp.
- Switch rated : 24VDC, 2 Amp SPDT.
SPDT (Single Pole, Double Throw)

Mortise Lock is furnished standard as Fail Secure (FSE). When power is off the trim is locked. Power is applied to unlock the trim. May be field converted to a Fail Safe (FS) mode. (FS) - power is applied to lock the trim.

QPS100 Power Supply

The QPS100 Power Supply is applicable for extensive range of electrical products. Q100-2 PCB is REQUIRED for use of ELR devices. The series Q100 has an option to provide key to lock the enclosure. Battery backup has two hours backup power at full load during an A.C. power failure. "Batteries will automatically recharge when failed power is restored. Fire Alarm provides input for a normally closed fire alarm contact. When the fire alarm contact is "open", power to locks or other component is removed. Restoring power is field selectable for automatic or manual."

Specifications :

- UL listed for Class II output
- LED indicators for AC input, DC output and battery backup status.
- The power supply can control up to (4) Delayed Egress Exit Devices.
- Circuit breakers provide protection for Motherboard.
- Standard input options: 120VAC, 1.0 Amp or 240VAC, 0.5 Amp.
- Output power: 24VDC, 2 Amp or 12VDC, 4 Amp.
- Power Supply box: 10" high x 12-1/2" wide x 5" deep (254mm x 318mm x 127mm), gray with a hinged cover and constructed of heavy 19 gauge steel.
- 3 options: (1) Key lock
(2) Fire alarm
(3) Battery backup (2hrs) while A.C. power failure

To order :

The Power Supply model is determined on the number of devices requiring electrical power:

QPS101	Voltage 120VAC
QPS102	Voltage 240VAC
QPS101K	Voltage 120VAC with Key lock
QPS102K	Voltage 240VAC with Key lock
QPS101-2	Two (2) Zone Controller Board
QPS101-4	Two (2) Zone Controller Board x 2
QPS101-FA	Fire Alarm
QPS101-BB	Battery Backup

Power Supply
QPS100

Optional Circuit Cards

Q100-2 Two (2) Zone Controller Board

Q100-BB Battery Backup

Q100-FA Fire Alarm

Batteries

The QPS100 series is available with several optional circuit cards to provide system flexibility. The power supply will accept one or a combination of any two cards.

To order :

Q100-2	Two (2) Zone Controller Board
Q100-K	Key lock
Q100-101	120VAC Power Supply Board
Q100-102	240VAC Power Supply Board
Q100-FA	Fire Alarm
Q100-BB	Battery Backup

Maximum wire run :

- 75 ft. with 14 gauge wire and 28 gauge Power Transfer
- 100 ft. with 14 gauge wire and 24 gauge Power Transfer
- 200 ft. with 12 gauge wire and 24 gauge Power Transfer

Power Transfer – EPT

EPT-1 Power Transfer with steel housing and flexible tube. Secure and inconspicuous channel to bring power from the frame to the door. Narrow, shallow channel easily mortises into door edges. Accepts up to 5/16" diameter wire bundle. Accommodates doors that swing open 120 degrees. Unit is concealed when the door is closed. Suitable for wood, aluminum or steel door applications.

EPT-2 Armored flex conduit. Accepts up to 1/4" diameter wire bundle. Eighteen inches long.

To order :
Specify EPT-1
Specify EPT-2

FS Fail Safe

Finish: 605 (US3) 606 (US4) 613 (US10B) 625 (US26) 626 (US26D) 630 (US32D)

Lever/knob: D Q A K / B P T Thumbpiece: GD GK

Voltage: 24v (standard) 12v

LINE 4 – SFIC CYLINDERS

For Q203M and Q205M

order 442-701-finish-440-0706

For Q308M, QC308M, and Q309M

order 442-702-finish-440-0706

For Rim Cylinder Mount

order 40500-finish-68-4001

For HL 400 Push/Pull

order 442-701-finish-440-0706

For Q608R and Q609R

consult Cylinder chart on page 27

For Schlage C Plug option

consult Cylinder chart on page 27

Note: Q203M, Q205M and Q207M with SFIC cylinder, also needs Cylinder Guard 4240-0202-finish.

With Standard Cylinder order Cylinder Guard 611902-032-finish. Q308M and QC308M need

Cylinder Guard 611902-032-finish. For Sex Bolts (SNB) consult chart on page 8.

Ordering Information

How to Order Electrified Device - RIM, CVR, SVR, 3PT

LINE 1 – DEVICE

Prefix for Electric Options:

AL	Alarm Exit
DE	Delayed Egress Device
ELR	Electric Latch Retraction
LM	Latch Bolt Monitoring
RX	Request to Exit
SS	Signal Switch

Additional Available Combinations:

ELR-LM
ELR-RX
ELR-RX-LM
RX-LM

Device Number and Rating:

Panic	Q1100 RIM	FIRE	QF1100 RIM
	Q1200 SVR	FIRE	QF1200 SVR
	Q1300 CVR	FIRE	QF1300 CVR
	Q1500 3PT	FIRE	QF1500 3PT

Device Size:

36" and 48"

Finish (see page 7):

605 (US3)	613 (US10B)	626 (US26D)
606 (US4)	625 (US26)	630 (US32D)

Dogging (see page 30):

Blank	Flat/Hex Key Dogging
CD	Cylinder Dogging
LD	Less Dogging

Bottom Rod and Latch Options:

LBR	Less Bottom Rod
PL	Pullman Latch

Note: for DE with 30 second delay option, add -30 suffix

For Push Bar Trim Options, see page 7. Add as suffix.

LINE 2 – STRIKE OPTIONS

Standard strikes included with Device.

Q106 RIM Strike	Q227 SVR, CVR, 3PT Bottom Strike
-----------------	----------------------------------

Optional strikes sold separately.

Q108 RIM Strike	Q224 SVR, CVR, 3PT Bottom Strike
Q136 RIM Pair Door Strike	
Q215 SVR Top Strike	
Q216 CVR Top Strike
